EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification:

Before the first line, the following sentence has been inserted:*

-- This is a divisional application of application SN 10/234,741, now US Patent No. 6,607,667, filed September 4, 2002, which is a continuation of application SN 07/723,446, now US Patent No. 6,447,911, filed November 28, 2000.—

* The request for amendment of the specification by inserting the continuing data as filed in the transmittal of new application paper) has not been entered and is hereby corrected by this amendment.

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Prior-art Rejection Issue: This application is a divisional application of the application SN 10/234,741 (US Patent No. 6,607,667) filed on September 4, 2002, which is a continuation of application SN 09/723,446 (Patent No. 6,447,911), filed November 28, 2000, the specification of which discloses all the elements of the instant claims. Thus, the effective filing date of the present application is November 28, 2000, which predates the filing date (Jan. 8, 2001) of the Patent '937 (US 6,296,937). Thus, the prior-art rejection based on the Pryor Patent as set forth in the previous office actions has been withdrawn.

Double Patenting Rejection Issue: The instant claims and the claims in the Patent '937 (US 6,296,937) are substantially identical except that the instant claims employ the language "comprising" as opposed to the language "consists essentially" of the Patent '937. The proper terminal disclaimer filed July 13, 2004 obviates the obviousness double patenting rejection against the Patent '937.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
